

How to Identity New **Series Tokens?**

How to Identify New Series Tokens

Effective from midnight on March 31, 2023, the new "**HS Series**" and "**WD Series**" tokens will be compatible with the CCA Crypto Guidelines 2.0 through the updated CSPs: "**HyperPKI HYP2003 CSP India v3.0**" and "**PROXKey CSP India V3.0**".

Please use this CSP w.e.f. 31/03/2023 midnight for downloading the new certificates to **HYP2003** and **Proxkey** Tokens, This CSP takes care of the new guidelines by only allowing the download and import of certificates to "**HS**" and "**WD**" series tokens.

As of now, only two USB tokens are allowed for downloading DSC. These are the **WD_PROXKEY**, with serial numbers starting with **WDXXXXXXXXX**, and the **HYP2003** token, with serial numbers starting with **HSXXXXXXXX**.

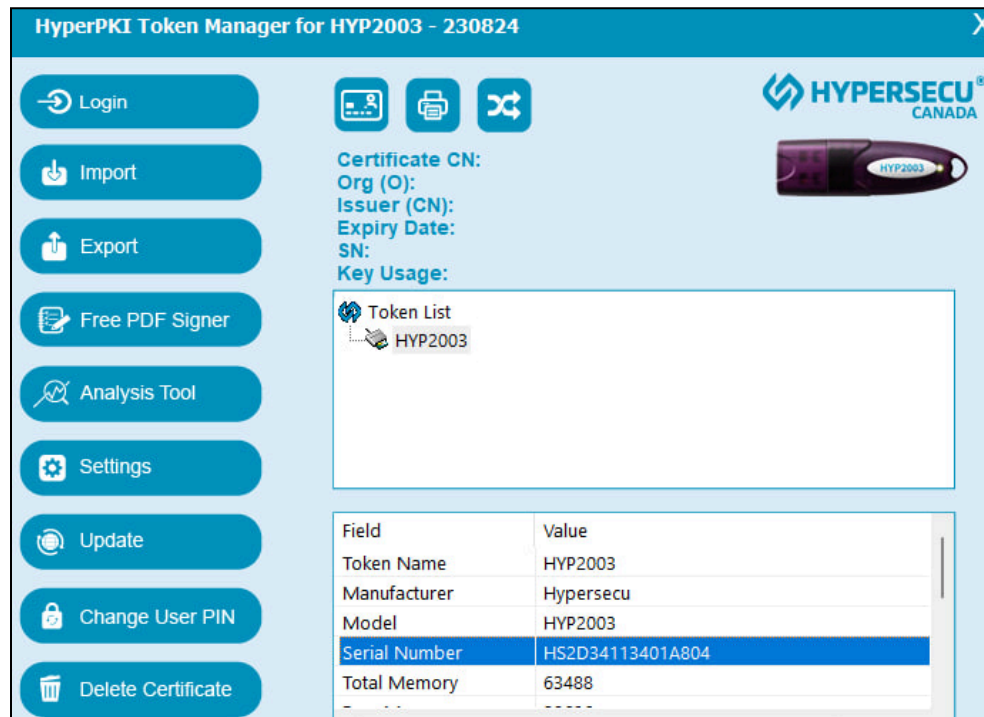

Signs to Identify the New Series Tokens

- HyperPKI HYP2003 CSP India V3.0

1. The Serial no. of the token will be printed on the Token Body itself (*as shown in the below picture*).

2. After its respective token driver installation, you can find the serial number in the token driver too (as shown in the below picture).

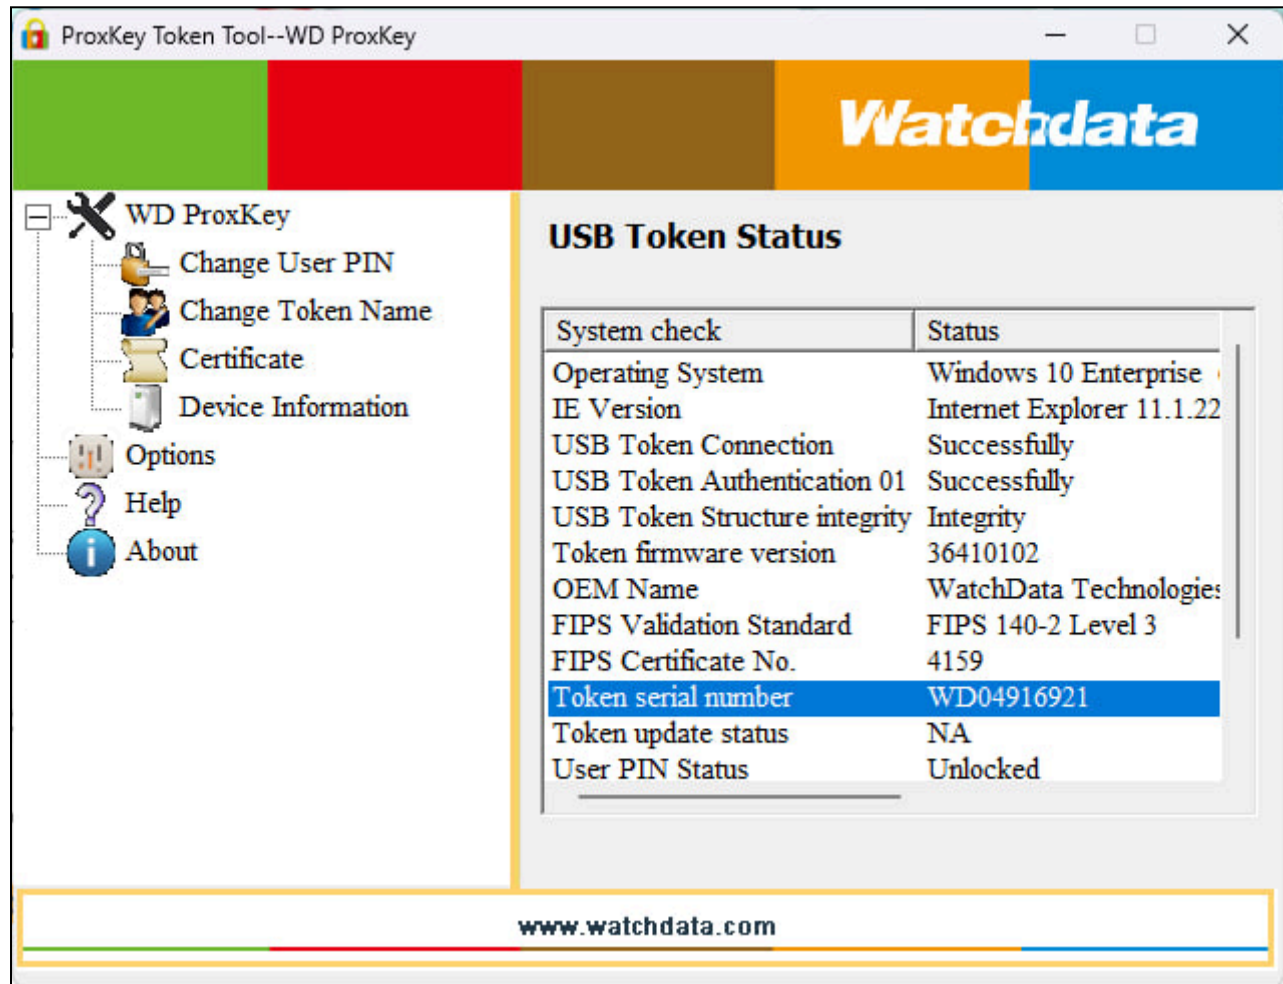

- **WD PROXKey CSP India V3.0**

1. The Serial no. of the token will be printed on the Token Body itself (as shown in the below picture).

2. After its respective token driver installation, You can also find the serial number in the token driver (as shown in the picture below).

The screenshot displays the 'ProxKey Token Tool--WD ProxKey' application window. The interface features a top header with the Watchdata logo and a left-hand navigation pane. The main content area is titled 'USB Token Status' and contains a table with system and token information. The 'Token serial number' row is highlighted in blue.

System check	Status
Operating System	Windows 10 Enterprise
IE Version	Internet Explorer 11.1.22
USB Token Connection	Successfully
USB Token Authentication 01	Successfully
USB Token Structure integrity	Integrity
Token firmware version	36410102
OEM Name	WatchData Technologies
FIPS Validation Standard	FIPS 140-2 Level 3
FIPS Certificate No.	4159
Token serial number	WD04916921
Token update status	NA
User PIN Status	Unlocked
